Roosand Desert Ranch is situated on the fringe of the Namib Desert, along the C26 between the Gamsberg and Kuiseb mountain passes. Roosand is ideally positioned halfway between Windhoek (165 km) and Walvis Bay/Swakopmund (180 km).

The farm has a size of approximately 12.000 hectares, a huge area by European standards. It is surrounded by magnificent scenery of red sand dunes – deposited in ancient times by winds from the Kalahari Desert – vast grasslands and rugged mountains.
